

Transplantation and Hepatic Pathology

UPMC
LIFECHANGINGMEDICINE

One Fellowship Opening for July 1st, 2015 through June 30th, 2016

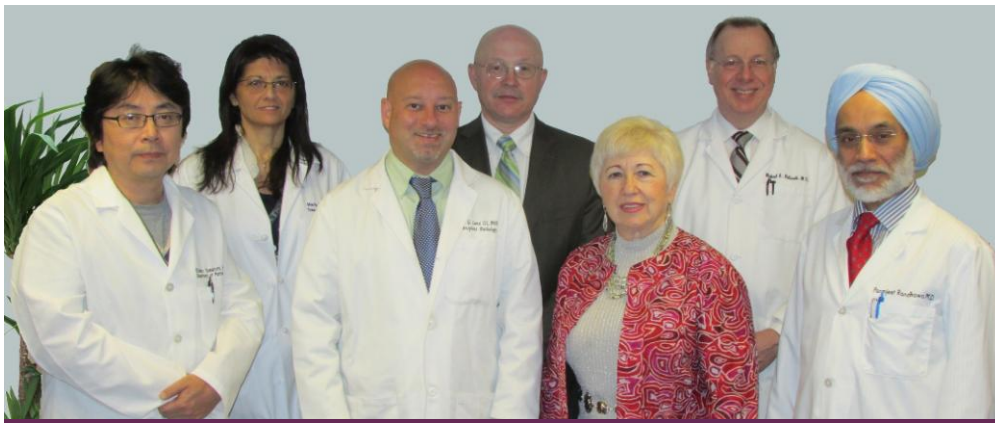

5 reasons to train at UPMC for Transplantation and Hepatic Pathology

1. Comprehensive expertise in transplantation pathology coupled with the cumulative material available from over 30 years of transplantation experience at the world-renowned Thomas E. Starzl Transplantation Institute of the University of Pittsburgh Medical Center. Liver, kidney, heart, lung, pancreas, small bowel and composite tissue transplantation specimens are available for study. A challenging consultation service rounds out the clinical service caseload.
2. Opportunity for participation in active research programs including immune tolerance, BK virus infection, biliary and hepatocellular neoplasia, antibody mediated rejection and others. Additional opportunities are afforded by ongoing collaborations and close proximities to Hillman Cancer Center, McGowan Institute for Regenerative Medicine and Carnegie Mellon University.
3. Individualization of Fellowship structure to allow for additional exposure to closely related areas such as Gastrointestinal Pathology or Nephropathology.
4. Incorporation of technological support assets such as multispectral whole slide digital imaging, telepathology service and dedicated Research Histology laboratory.
5. Daily one-on-one contact with actively engaged and internationally established faculty with proven track record of leadership in Transplantation and Hepatic Pathology.

**Division of Hepatic and
Transplantation Pathology**
UPMC Montefiore Hospital, Room E-733
3453 Fifth Avenue
Pittsburgh, PA 15213

FELLOWSHIP

Transplantation and Hepatic Pathology

UPMC
LIFECHANGINGMEDICINE

PROGRAM SPECIFICS

Number of approved positions	1 per year
Program length	1 year
Type of program	Large academic, fully ACGME-accredited
Funds for books, dues and travel	\$1,750, plus one department sponsored conference

FACULTY

Anthony J. Demetris, MD	Parmjeet Randhawa, MD
John Lunz, PhD	Eizaburo Sasatomi, MD PhD
Marta I. Minervini, MD	Adrianna Zeevi, PhD
Michael Nalesnik, MD	

SCHEDULE

Rotations (Estimate)	Time
Research (includes 3 weeks vacation and 1 week of conference time)	24 weeks
STATS / Biopsies	18 weeks
Resections / Native kidneys / Consults	10 weeks
Additional electives (replaces research weeks)	optional

CONTACTS

Dr. Michael A. Nalesnik Fellowship Program Director, Hepatic and Transplantation Pathology
Dr. Anthony J. Demetris Division Director, Hepatic and Transplantation Pathology
Ms. Selene Douglass 412-647-7645 Program Coordinator douglasssr@upmc.edu

ACADEMICS

(accumulations over a one year period)	
Total Research Funding	\$1,606,328
National/International Presentations	20+
Publications (Including invited reviews and book chapters)	45+
